DAILEE LADY PREMIUM

For active, mobile people and pregnant women with light bladder weakness.

LIGHT

Leakage less than ca 100 ml/episode
> 4 drops

MEDIUM

Leakage ca 100-200 ml/episode
4 > 5 drops

DAILEE MEN

For active, mobile people with light bladder weakness.

I go to the gym twice a week. While exercising, I sometimes experience mild urine leakage. Dailee Men keeps me dry and comfortable so I can focus on my workouts. The light inco pouch is comfortable, discreet, hygienic and conveniently packaged. Soon I'm going to run my first 10-mile race. I'm ready for it!

- Protects effectively against light bladder weakness
- Ultra-thin
- Secure choice for active wearers
- Invisible reliability
- Anatomically shaped

Feel fresh
Feel comfortable

The innovative Comfort Dry channel technology provides optimal performance and perfect fit, ensuring ultimate protection.

Innovative Drylock Technology for night time ensures protection and feels dry all night. And dry nights guarantee good sleep.

Double leakage barriers help ensure top performance.

Dailee products have ultimate defense-leak-guard leg cuffs.

Odours are under control. Thanks to odour-neutralizing material in the pad or briefs you feel more confident.

Maintaining a healthy skin is indispensable. Dailee guarantees fully breathable protection that assures skin health and comfort.

Maintain your active lifestyle even with a weak bladder. Dailee and Drylock Technology match the high absorbency of classic thicker products with the discretion of ultra-thin protection.

Incontinence can lead to inflammatory skin disease. To meet this challenge and minimize the risk, we have optimized the design of adult incontinence briefs. The design has been dermatologically tested and approved.

Dailee Slip is expertly and anatomically designed to suit every shape. It fits the body perfectly.

The Dailee Slip and Dailee Pant can be slipped on and off easily, just like any underpants.

Dailee Pant is ergonomically designed and figure-flattering. Thanks to the ultra-body-hugging fabric technology it looks and feels like underpants ensuring 100% security for the wearer.

Dailee intimate apparel is made of soft fabric that caresses the skin. Silky Soft and Ultra soft enhance comfort and appeal to the touch.

TECHNOLOGY

Discretion + Performance + Security

Drylock Technology inside
Innovative Comfort Dry technology, for the ultimate protection & security.

From light to heavy incontinence solutions

Heavy incontinence
> Leakage of ca +200 ml/episode

Drip stress incontinence
> Leakage of ca 100-200 ml/episode

Light incontinence
> Leakage of less than 100 ml/episode

DAILEE PANT PREMIUM

For active, mobile people with medium bladder weakness. Once applied, these pants can be pulled on and off easily, like any other underpants.

MEDIUM

Leakage ca 100-200 ml/episode
4 > 5 drops

HEAVY

My name is Ann, and I'm an experienced actress. I've been appearing on stage for over 50 years. This year, I've been playing the role of Juliette in Molière's comedy Tartuffe. The role of Madame Pernelle, the older matriarch, could have been written for me. Because I regularly suffer from urine leakage, I use Dailee Pants. They feel just like regular underpants, and yet I feel 100% confident on stage.

And they're invisible underneath my smartly tailored, figure-hugging suit.

dailee
DRYLOCK TECHNOLOGY INSIDE

- Ergonomically designed and figure-flattering
- The stretch fabric offers freedom of movement and a high level of comfort
- Invisible reliability
- Optimised leak reduction

DAILEE SLIP PREMIUM

Adult diapers for reactive people with heavy to severe incontinence

MEDIUM

Leakage ca 100-200 ml/episode
5 > 7 drops

HEAVY

Leakage ca 200-300 ml/episode
8 > 10 drops

On my evening visits I use Maxi Plus. That way I know for sure that Louis will stay dry throughout the night.

The Dailee Slip's elastic side panels accommodate a large range of waist sizes, which means fewer products for me to take along on my rounds. And the tape measure makes choosing the right size a breeze.

- Fully breathable protection that promotes skin health and comfort
- Convenient wetness indicator
- Elastic side panels accommodate a range of sizes
- Two sizes fit 80% of all bodies

They're easy to put on while the patient is lying down. Adult incontinence can cause skin irritation and infection. To prevent this, it's important to use hygiene products that are fully breathable. The Dailee Slip is excellent in this regard. It also has a convenient wetness indicator. If I notice that diapers are becoming saturated too quickly, I can switch to a higher level of protection.

I'm a home health nurse and I check in on Louis, a patient with severe disability, twice each day. In the morning, after bathing Louis, I put Dailee Slip Super on him.

DAILEE COMFORT PREMIUM

Shaped pad to combine with fixation pants. (Heavy incontinence for mobile people)

MEDIUM

Leakage ca 100-200 ml/episode
5 > 7 drops

HEAVY

Leakage ca 200-300 ml/episode
8 > 10 drops

DAILEE FIX
The stretch pant offers seamless comfort. Easy Fix application.

DAILEE BED

The absorbent surface is designed to quickly lock in fluid and neutralize unpleasant odours while protecting bed and other furniture effectively. Our Dailee Bed Fix provides adhesive strips to ensure underpads are held firmly in place on wheeled beds, or armchairs. For patients suffering from burn wounds or decubitus ulcers, Dailee AIR provides an underpad that's breathable.

- Easy to use
- Adhesive strips for secure fixation in Dailee Fix
- No issues about odour control

Ever since my prostate surgery, I've had poor bladder control. As a professional consultant, I meet frequently with clients. Dailee Comfort pads fit comfortably and securely into the Dailee
